Since I first started marketing my books I've been asked several questions about the original conflict. I've posed those questions to several Southerners. I've been able to interview Southerners, about their understanding of why the conflict has continued. The answers are provocative and shed light on why there's still mistrust and hatred after 150 years.

I believe their blockbuster answers will astound anyone who's been educated by the "politically correct" educational combine that's been in existence for decades.

It seems as if the truth has been in front of us all the time; that we've ignored the obvious. Both sides are entitled to their point-of-view. Many people pay lip service to being open minded until they meet someone who disagrees with them. Their main focus seems to be to further their political agenda.

In conducting the research for "Questions from the North; Answers from the South" my eyes were opened to the causes of many of our great nation's problems. The problem now is what are we going to do about it? To start, study the answers the Southerners gave us. This is a call to action and shows that it is time to make a choice!

"I highly recommend James Elstad's excellent work, Questions from the North; Answers from the South. It will go a long way toward helping Dixie preserve the truth about Lincoln's War."

- LOCHLAINN SEABROOK, award-winning Southern author and historian

"These Northern questions articulate the entrenched Northern Myth. Mr. Elstad digs beneath each one to expose the truth."

- H. V. Traywick, Jr., author of Empire of the Owls: Reflections on the North's War against Southern Secession.
